Ministry Progress Report 2011

Dear CMT Supporter:

When CMT works within non-profit organizations we often begin by assessing what the organization needs. We then apply services and products that best suit those needs.

Sometimes it's training in the arts (music, media, drama, technical services, support services, administration, or stage design/artistic direction). Other times we address communication needs on the part of the staff of the organization to help them cooperate better. Sometimes we engage in complete restructuring of an organization's strategic plan, helping them with staffing and building core teams.

Much of the time we train and coach leaders to be more effective as they build teams to accomplish their ministry goals. We are dedicated to the success of our clientele. We care about who the people are and what they do. We believe in building relationships and greater functions, in that order.

CMT has earned the confidence of its clientele. We have worked with many non-profit organizations. We invite you to review the letters of recommendation found on this website. We are honored to have served these viable outreach and religious organizations.
