Progress Report June 2010

Dear CMT Supporter:

When CMT works within a non-profit organization we often begin by assessing what the organization needs. We then apply the services and products that best suit those needs.

Sometimes it's training in the arts (music, media, drama, technical services, support services, administration, or stage design/artistic direction). Other times we address communication needs on the part of the staff of the organization to help them cooperate better. Sometimes we are engaged in complete restructuring of an organization's strategic plan, helping them with staffing and building core teams.

Most of the time we train their leaders to be more effective and build teams to accomplish their outreach goals with greater efficiency. We are dedicated to the success of our clientele. We care about who the people are and what they do. We believe in building relationships and greater functions, in that order.

CMT has the confidence of its clientele. We have worked with many non-for-profit organizations down through the years. Please visit the letters of recommendation on this website. We are honored to have served these viable outreach and religious organizations.
